# Provide fast, secure access to your enterprise users of mobile and cloud technologies using a highly scalable, cloud-based and cost-effective service. Identity-as-a-Service (IDaaS) from Cognizant Security

The explosion of cloud and mobile usage by enterprises had rendered older identity tools and processes obsolete. With our Identity-as-a-Service solution, customers enjoy benefits such as:

- Reduced complexity by eliminating one-off IAM deployments and upgrading to a highly scalable, cost-effective service.
- Improved user satisfaction due to a seamless, easily-understood process that takes just seconds to complete.
- Enhanced security capabilities to help protect the enterprise from attack
- Fast and effective deployment model reduces the time and effort associated with installing and maintaining hardware-solutions
- On-demand reporting to meet your ongoing compliance audit requirements
- Managed 24x7x365 by Cognizant Security experts, freeing up your identity and access management team to work on other projects

Cognizant Security's Identity-as-a-Service solution is part of a broad portfolio of fully managed security services designed to help our customers to meet their Security challenges.
